
OUR MISSIONS

Respon is in the business of supplying international class flow control valves, actuators, wellhead and subsea products to its customer. Our mission is to be a preferred and reliable supplier of excellent quality products. We will constantly source for and only work with manufacturers who focus on producing constantly high quality products that will meet the demanding quality requirement of our customers.

We know that on-time delivery is very crucial to our customers to meet dead-lines. We monitor and expedite our supply chain to ensure that we delivery our products to our customers on-time, all the time.

We value the safety of everyone in our supply chain and the protection of the environment. We will only work with companies that share our values. We also take care of the welfare of our employees, agents and partners to create a productive environment for our business.

INDUSTRIES

- Subsea
- Refinery
- Oil & Gas
- Geothermal
- LPG & LNG
- Petroleum & Chemical
- Chemical Fiber
- Coal Chemical
- Power Plant
- Water Treatment
- Pharmacy
- Salt Chemical
- Environment Protection

RESPON

Committed to supply international standard valves, actuators and wellhead equipment.

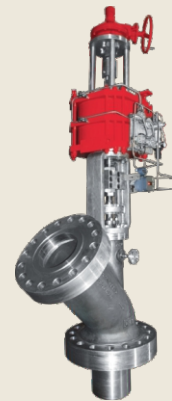

LEADING MANUFACTURERS OF CHINA

International standard facilities / Advanced manufacturing equipment

Our Main Products

- Control Valves
- Ball Valves
- Gate Valves
- Globe Valves
- Check Valves
- Butterfly Valves
- Pneumatic Actuators
- Electric Actuators
- Subsea Valves
- Geothermal Valves
- Wellhead equipment

Our Services

- Installation
- Repairing

Control Valve Plant

The plant covers an area about 45,000 m², and the annual capacity is ~ 15,000 sets. About 50 engineers undertake product design and process development. Every year 4% of the sales amount is invested in R & D. Over the years the company has obtained 132 patents.

API 6D Valves Plant

This plant specialized in designing & manufacturing API 6D piping line valves such as: Ball, Gate, Check and Globe valves. Beside the regular valves, it also produce Engineering Valves and High range Temperature Valves such as Cryogenic Valves, Geothermal Valves and Orbit Valves.

Subsea & Surface Wellhead Equipment Plant

This plant specialized in designing & producing Wellhead, Xmas tree, Expanding Gate Valves, API 6A Gate Valves, BOP, Choke Valve & Kill Manifold. The plant international certificates include API 6A, API 6D, API 16A, API 16D, API 16C, ISO9001A, ISO14001 and OHSAS 18001.
